R4 thru 37	130	5320	100	4040	11,300	1240	200	40	41,440	220	30	3450	160
ending 28 Oct 65													

NOTE: A compilation of the total quantity of ordnance expended on fixed targets is not available. The above figures were obtained by multiplying the total expenditures against all North Vietnam targets by the ratio of total strike sorties against fixed targets to total strike sorties against all targets, or 1/3. The number of significant figures shown is not consistent with the real degree of accuracy with which these numbers are known; they are a result simply of the arithmetic derivation.
